# Build your business with Broadband Fibre

Our budget-beating Broadband Fibre solution is designed to deliver exceptional quality that evolves as your needs change.
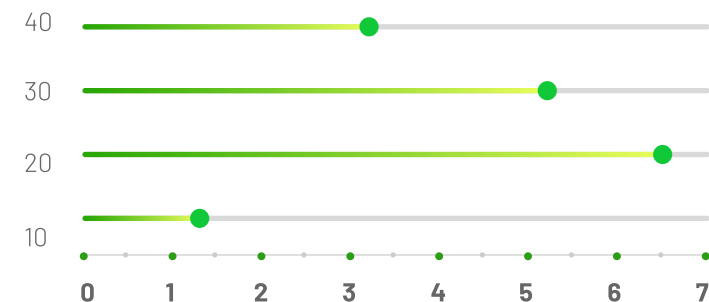

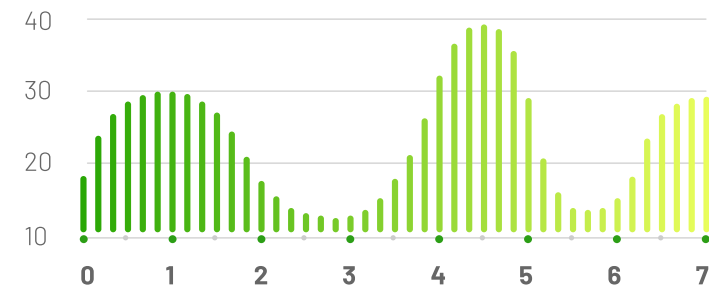

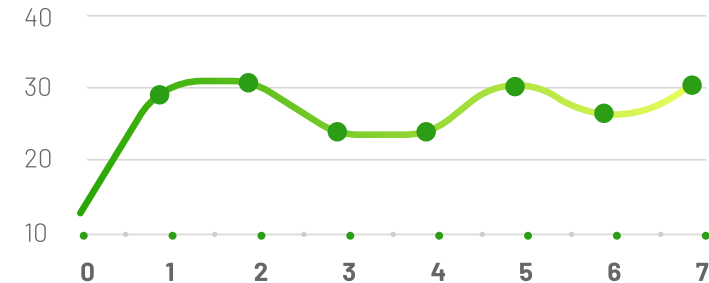

NETWORK PLATFORMS

Let's get growing

Quality connectivity is essential to building a business - but for many organisations, it is simply too expensive.

Our Broadband Fibre packages are designed to give businesses the affordable, flexible connection they need without sacrificing performance

Designed to meet your growing demands, this unmetered package has no fair use policy. So you can stay connected and embrace every opportunity without restrictions slowing you done.
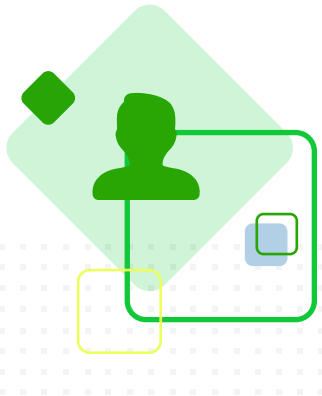

And because our fibre services are backed by of the best local and internationally connected networks in the country, you can be sure you're getting world-class performance - without the eye-watering price tag.

Broadband to build a better business

Need even more? Contact one of our account managers to find out more about these additional services.

We're serious about service

Service is everything to us, and you will always get the best care - it comes as standard.

Short routes = serious speed and stability

We have direct capacity on **multiple international links** and infrastructures, meaning we have the shortest routes to and from South Africa.

Unbeatable reliability

Because our core network is built for complete redundancy, your business will always benefit from maximum uptime.

Scaling up sorted

We understand that your business is on the up, and when you're ready for more, we'll be there to deliver.

Premium performance at an affordable price

Hosted PBX Asterisks	included
Asterisks additional PBX extension	R35,00
3CX PBX 10 extensions, max 4 concurrent calls	R950,00
3CX additional extensions	R110,00
LTE router (once-off cost)	R2 500,00
LTE package prices	Contact us
Licenced Wireless backup connections	Contact us

Please note

- Prices exclude vat.
- Availability is subject to coverage and network feasibility.
- Installation costs vary according to contract term and capacity. Setup fees are waived on 36-month contracts.
- Key definitions: MRC is Monthly Recurring Cost; NRC is a Non-Recurring Cost
- As this is a Broadband service the Service Level Agreement turnaround times are longer and recommend a backup connection to mitigate the resolution time frame in the event there's an outage. This can be either LTE or Wireless, LTE being the more cost-effective solution while a wireless link will have a better and more consistent service.
- This service is currently limited to 100 Mbps
- This service has a contention ratio of 1:10
